STAT 340(223)

5 May 2022

Dear Ms. Saikia,

**United Nations Expert Group Meeting on Innovative Methods to Measure the Impact
of COVID-19 on Mortality through Surveys and Censuses**
Abu Dhabi, United Arab Emirates, 23-26 August 2022

It is my pleasure to inform you that the Statistics Division of the United Nations Department of Economic and Social Affairs (UN-DESA), in collaboration with the UN-DESA Population Division and New York University (NYU) Abu Dhabi, is organizing an Expert Group Meeting on Innovative Methods to Measure the Impact of COVID-19 on Mortality through Surveys and Censuses. The meeting will take place at the NYU Abu Dhabi campus, on 23-26 August 2022.

The meeting is organised under the guidance of the Technical Advisory Group on COVID-19 Mortality Assessment (TAG) established jointly by UN-DESA and the World Health Organization (WHO). As a final output of the Working Group 2 under the TAG, the recommendations produced by the Expert Group Meeting will not only help fill national data gaps in adult mortality in terms of availability, quality and timeliness, but also provide guidance on ways to collect data that can capture the impact of the pandemic (or any future crisis) on adult mortality through surveys and censuses.

The meeting will discuss and agree on a set of proposed recommendations for censuses and surveys based on ongoing research and experiments, and particularly in low-income and middle-income countries. These recommendations will seek to (a) improve adult mortality data collection in terms of quality, availability and timeliness; and (b) generate census and survey data that could be used to measure the impact of epidemics, pandemics and other disasters on adult mortality. The proposed recommendations would cover innovations in questionnaire design; interview methods and sampling strategies, as well as integration of surveys and censuses with other data sources on mortality (e.g., civil registration, health information systems).

In this context, we would like to invite you to join the Expert Group Meeting. Your travel to the meeting, as well as meals and accommodation will be covered by NYU Abu Dhabi. Please kindly return the attached participation form and travel request form by **Friday, 13 May 2022.**

Dear Dr. Dewaram Nagdeve,

On behalf of the review committee for the Oxford Symposium on Religious Studies, we are pleased to accept your abstract, "Family Planning Differentials among Religious Groups in India," and invite you to give an oral presentation at the Oxford Symposium on Religious Studies, to be held at The Queen's College, Oxford University, United Kingdom, 8-10 August 2022.

The Oxford Symposium on Religious Studies brings together scholars of religion from a wide background, both internationally and in terms of their specific religious interests. In a global situation where religion is culturally and politically predominant for many, yet marginalised and diminishing for others, and where spirituality is frequently disengaged from institutional religion, the Symposium regularly explores the place of religion in contemporary.

Canon Brian Mountford MBE, former Vicar of St Mary's Church and Fellow of St Hilda's College at the University of Oxford, will host the August 2022 session. More information is available on our website:
www.oxfordsymposiumonreligiousstudies.com

We hope you will be able to join us for this timely and engaging symposium event.

Sincerely,

Sara Hoke, MBA
