### LECTURE TITLE

## "Opportunities in the Leading Academic Institutions in India for students of IIPS"

**DATE: 5TH JULY 2022**  
**TIME: 4.00 PM TO 5.30 PM**

### ABOUT THE LECTURE

The objective of this lecture is to build awareness of the broad array of career opportunities in the leading academic institutions available to the IIPS students.

### About Speaker

With background in Physics, Maths and Statistics, Dr. Arun K. Sharma obtained M.Sc. degree in statistics from Meerut University, in year 1972. After working in State Planning Institute for some time, he joined the International Institute of Population Studies (now Sciences) in 1975 as a student of certificate of population studies programme and obtained diploma in population studies in 1977. Then he obtained Ph.D. degree in sociology from IIT Bombay in 1980.

Subsequently, after working as Research Associate in IIT Bombay, and Research Executive in Operations Research Group, New Delhi, each for a few months only he joined IIT Kanpur as a lecturer in Sociology, where he served for 41 years, from 1980 to 2021, and retired as Emeritus Fellow in June 2021.

In his large span of teaching and research career he guided 27 doctoral and post-doctoral candidates and published a large number of papers in national and international journals. He had also taken up several research projects sponsored by government and private institutions. His areas of teaching and research were social demography, research methods, social theory, rural development and health. Dr. Sharma is now working as a freelancer and is associated with the Just Transition Research Centre as a consultant.

### LECTURE TITLE

## "Higher Education Opportunities in Europe"

DATE: 6TH SEPTEMBER 2022  
TIME: 4.30 PM TO 6.00 PM

### ABOUT THE LECTURE

The objective of this lecture is to build awareness of the broad array of career opportunities in the leading academic institutions in European Countries available to the IIPS students.

### About Speaker

Dr. Aravinda Meera Guntupalli is a distinguished alumni of the International Institute for Population Sciences (IIPS) and works as a Senior Lecturer in Global Health at the University of Aberdeen, United Kingdom. Her academic journey started with a BSc in Genetics, Chemistry and Zoology and she later completed her Masters in Anthropology from Hyderabad Central University. Dr. Aravinda completed her Masters in Population Studies from IIPS and she holds a PhD in Economics from the University of Tuebingen, Germany. After her post-doctoral fellowship from University of Southampton and subsequently working in The University of Southampton and The Open University, she joined the University of Aberdeen in 2019. Her research focuses on health inequalities across the life course, nutrition and food insecurity among migrants, multidimensional poverty among older people and NCD related-inequalities in middle-aged and older adults in low and middle-income countries.

### LECTURE TITLE

## "Research Ethics in Australian Universities/Research Institutes"

DATE: 17 FEBRUARY 2023  
TIME: 9:30 AM

### ABOUT THE LECTURE

The objective of this lecture is to build awareness of Ethical issues in Population and Health related research.

### About Speaker

Prof. Jatrana currently holds an Honorary Associate Professor position at the Australian National University, and a Conjoint position at Deakin University. She also had an Honorary Senior Research Fellow position at the University of Otago, New Zealand (2011-2021). She holds a Ph.D. in Demography from the Australian National University, and a postgraduate diploma in Public Health from the University of Otago. She is Editor-in-Chief, of the Journal of Population Research-the main journal of the Australian Population Association and published by Springer. She is an Associate Editor of Population and Environment and a member of the International Advisory Board of Asian Population Studies

### LECTURE TITLE

**" The Digital Revolution and Demography: Perspectives from Digital and Computational Demography"**

**DATE: 27 MARCH, 2023**  
**TIME: 03:30 PM**  
**VENUE: ICT LAB (HYBRID MODE)**

### ABOUT THE LECTURE

The objective of this lecture is to broaden understanding about the digital revolution in Demography

### About Speaker

Dr. Ridhi Kashyap is Professor of Demography and Computational Social Science at Nuffield College, University of Oxford. She completed her DPhil in Sociology jointly affiliated with the University of Oxford and Max Planck Institute for Demographic Research. Her research spans topics in demography and sociology related to population dynamics and human development, with a significant focus on different manifestations of gender inequality. Her work advances the use and applications of digital and computational innovations in demographic research, and examines the implications of digital technologies on demographic and development outcomes. From a methodological standpoint, she has a keen interest in how computational methods (e.g., agent-based models, microsimulation, machine learning) and new data streams (e.g., digital trace data from the web and social media), can contribute to the study of population dynamics and social inequalities.

### LECTURE TITLE

**"Preparing for a career in global health and development"**

**DATE: 3rd MAY, 2023**  
**TIME: 5:00 PM**

### ABOUT THE LECTURE

This lecture aims to offer guidance and information to students who have an interest in pursuing a profession in the field of global health and development, helping them prepare for such a career.

### About Speaker

Dr. Saumya RamaRao is the Chair of the Institutional Review Board of the Population Council. She is also an independent global health consultant. She started her professional career at IIPS in 1991 where she taught the Certificate and Masters level classes. She then moved to the Population Council's Delhi office and subsequently to the New York office. Her areas of expertise are in reproductive health, evaluation of programs, and ethics.
