Information, Communication, and Technology (ICT) Unit

Information, Communication, and Technology (ICT) Unit of the institute is well equipped with state-of-the-art ICT resources and provide an effective ICT services to the academic and administrative activities of the Institute. The unit manages the information technology infrastructure to provide IT services; the ICT division evaluates and installs the necessary hardware and software to keep the network functioning properly.

The Institute has a robust Data Centre comprising network-attached to the server to enable storing and disseminating demographic datasets. The Data Centre currently has all relevant datasets such as census, various rounds of large-scale surveys conducted by IIPS, which can be directly accessed by IIPS users. Through a web portal, online databases of surveys by IIPS are also disseminated to the registered users.

The ICT unit has many prominent features including a wired (Ethernet) and wireless (WiFi) network which is accessible to the faculty, staff, students and visitors. The network has a layered architecture consisting of Security, Core, Distribution and Access layer. The local area network is built using Gigabyte fibre optic backbone and offers 100 /1000 Mbps desktop connectivity. The wired network consists of nearly 250 network attached computers that provide 1 Gigabit network jacks. The network is constantly being upgraded, monitored and maintained to provide a high level of service. The wireless network is based on the 802.11 b/g (WiFi) standard and is constantly expanding to provide better coverage throughout the campus.

To monitor and protect the institute networks, the security policies have been implemented in the institute and also promote information security awareness among students, faculty, and staff. The purpose of the security policy is to minimize risk associated with internet and email services, and defines controls against the threats of unauthorized access, theft of information and malicious disruption of services. To mitigate such risk, Periphery network security is implemented using Firewalls and UTM devices. These devices are configured with the best recommended policies and are capable of handling , intrusion detection, intrusion prevention , content filtering , application filtering , spam filtering , antivirus and malware detection and filtering these devices are also used for identity based network access control. Network utilize the campus Dynamic Host Configuration Protocol(DHCP) servers to obtain an address (Wired fixed addresses are reserved; roaming and wireless addresses are dynamically assigned.)

The server or rack of servers is housed in a secured facility, and escorted access is provided. ICT provides hosting services in a secure, centrally managed environment for Demographic Datasets, e-Governance applications and Learning Management System (Moodle). Servers are connected with the backup utilities. The Datasets, eGovernance records and files are stored in the servers placed in Data Centre (DC) and Disaster Recovery (DR) site. In addition to this, all other critical infrastructure components such as provision for power backup, fire alarm have also been made.

The institute has computer Labs outfitted with with high end personal computers and statistical software, such as IBM SPSS Version 26, STATA Version 16, SAS 9.4, ArcGIS Pro 2.x, Endnote X7, ATLAS.ti, and NVIVO required to analyse demographic datasets are installed with a multiuser license. The unit have JAWS & Kurzweil-1000 for visually impaired users. In addition, important Open Source Software such as R, CPro, MORTPAK, OpenOffice, Firefox have also been installed. The computer labs are used for research data analysis and conducting computer classes for various courses. The ICT unit of the institute creates, maintains, and updates information on the institute's website & Social media account regularly. The webmaster and professionals in the unit design the website's layout, write the

programming code, and test usability of the programs. The unit provides webmail service, enabling its users to access mailbox from anywhere. The unit also provides technical support to the eGovernance (eOffice) application, Video Conferencing tools viz. Skype, Microsoft Teams and Webex (Cisco). Also provides technical supports and training to conduct online classes, short-term training programs, workshops, seminars, and other such events online. The Moodle, a learning management system, is also supporting by the unit. A complaint management portal/helpdesk is maintained where the individual user can register the complaint and can track the resolution status. IIPS strives hard to reduce the carbon footprint. Most of the administrative file movement handled through the eGovernance application.

Library and Information Sciences

The IIPS is the only Institute in the world completely devoted to teaching and research in the population-related areas.

- To collect, organize, and disseminate demographic information on the population of India and other countries worldwide.
- To undertake and provide for the publication of journals and research papers, books as well as to establish and maintain libraries and information services in furtherance of the objectives of the Society.

The IIPS library is well-known to the scholars for its information resources. The library has the best combination of printed, online and digital resources in its collection.

The capacity of the library 150 students. It is fully automated in the year 1997 and it is having a seating capacity of 150 students. The Library is located in two floors with natural ventilation. The total area of the library is 11890 sq. ft.

The library has digitised Indian census volumes published during 1872–2011, and these volumes are available via remote access to the users. It has contained all the publications of the United Nations, and the World Bank published on Population Studies and relevant topics.

The IIPS Library is having adequate number of computers for innovative in practices to promote resources and services to its users which have been duly recognized as one of the top most library in the world in the field of demography.

The library is integrated with SLIM21 software. The online catalogue, web OPAC is the most accessed tool amongst all services. It is user friendly to browse the documents.

IIPS library is having institutional repository for archiving faculty publications, research reports, annual reports, Ph.D thesis, M.Phil dissertations, seminar papers etc.

The library is having rich collection journals and online databases. The library is providing remote access services to more than 23 e-resources and online databases. Prominent among them are Science direct (Social Science Collection), JSTOR, Scopus, India Stat.com, OECD United Nations iLibrary, ProQuest ETDs, EPWRF database, Economic & Political Weekly, Springer online (Pick and Choose model), Oxford online (Pick and Choose model), , Routledge online (Pick and Choose model), Sage online (Pick and Choose model) etc.

The library is providing e-book facility to its users through remote access.

Library provides research support services through innovative services like Current Awareness Service, Article alert, Document delivery, Reference service etc.

The IIPS library is using URKUND software for Plagiarism detection which was provided by the UGC-INFLIBNET.

Ref. No.: A17/ 70 /2021
Dated : 12th August, 2021

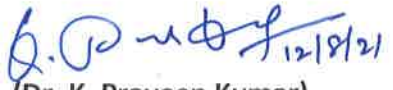

To,
Kishore Raut
Spacios Book House,(Proquest)
A/103, Jalkriti Co-p.Hsg.Society,
Jalraj Nagar, Off Link Road,
Borivali (W)
Mumbai – 400 091

Sir,

The institute library would like to renew the Online database 'ProQuest Thesis and Dissertations (Social Science & Humanities Collection)' for the year 2021-22 (From September 2021 – August 2022). It is therefore requested you to submit the invoice in duplicate.

Thanking you,

Yours faithfully,

(Dr. K. Praveen Kumar)
