

Centre of Demography of Gender

International Institute for Population Sciences

About Centre

The International Institute for Population Sciences is pleased to announce the launch of 'Centre of Demography of Gender' within the Department of Population and Development on October 01 2021. The new center aims to carry out high-quality interdisciplinary teaching and empirical research on various aspects related to population, health, and development in India and abroad. A key mandate of the new center is to develop gender related course curriculum which suits to the requirements of various stakeholders. Capacity building, through tailor-made short-term courses, is also an important agenda of the new center. In addition, the new center will act as a central data repository in India from where individuals, institutions or other stakeholders can access all data related to issues on gender. The centre will also provide timely policy inputs to the central and state governments and local administrative bodies for formulation of appropriate policies and programmes from time to time.

Inaugural seminar of Centre of Demography of Gender

Centre of Demography of Gender organized the inaugural Seminar on 21 July 2022 in the institute. Five eminent speakers in the area of demography of gender delivered the lectures on relevant thematic areas of CDG.
