# ABOUT IIPS

The International Institute for Population Sciences (IIPS), Mumbai, established in **1956** as the **Demographic Training and Research Centre**, was founded with support from the **Sir Dorabji Tata Trust, Government of India, and the United Nations**. In 1985, it became a Deemed University, empowered to award its own master's and doctoral degrees.

Today, IIPS is a research-intensive, global centre of excellence, with over 300 students across population sciences, supported by an interdisciplinary faculty trained in India and abroad. As the **regional centre of excellence for the ESCAP (Economic and Social Commission for Asia and the Pacific) region**, it has educated students from India, the Asia-Pacific region, Africa, and North America, with alumni serving in leading organisations such as the **WHO, UNICEF, UNFPA**, and top universities worldwide.

IIPS plays a critical role in India's population and health landscape. It serves as the nodal agency for the **National Family Health Survey (NFHS)**, India's **flagship population health survey**, coordinating all technical and methodological aspects and **collaborating extensively with UN agencies, the World Bank, and national ministries**. The Institute also provides consultancy, conducts major research studies, and leads capacity-building through seminars, conferences, and specialised training programmes.

With more than six decades of impact, IIPS continues to shape demographic research, public health policy, and evidence-based decision-making in India and globally, fulfilling its mission to produce high-quality research and train the next generation of specialists in population studies.

## DIRECTOR'S MESSAGE

Dear Recruiter,

I'm delighted to introduce the International Institute for Population Sciences (IIPS) in Mumbai, an institution with a rich history dating back to 1956. IIPS has earned the status of a Deemed University due to its significant contributions to demographic and health research, teaching, and training. The institute excels in combining cutting-edge research with effective teaching, thanks to its accomplished and diverse faculty members.

Our students are well-prepared to work with extensive datasets, employ advanced quantitative and qualitative techniques, and interpret their findings to support improved policies and program interventions. They particularly shine in the fields of Population Sciences and Biostatistics. Through collaborations with international organizations like UNICEF, UNFPA, WHO, and prestigious universities worldwide, we offer our students exposure to the latest developments in population and health research.

I extend a warm invitation for you to visit our campus and engage with our students, who not only possess valuable skills, knowledge, and diverse field experience but have also embraced the values and ethics of our institution. These principles will guide them to become valuable assets to your esteemed organizations, whether they work on small-scale or large-scale projects, from rural communities to the global stage. They are committed to making a positive impact on society, the environment, the economy, education, and various other fields, all while maintaining a strong sense of compassion and humanity.

**Dr. Dewaram A. Nagdeva**  
Director(Additional Charge),  
International Institute for Population Sciences,  
Mumbai

## MESSAGE FROM COURSE COORDINATORS

### Dr. Dipti Govil Assistant Professor

Designed as a specialised postgraduate programme, the M.A./M.Sc. in Population Studies at IIPS trains students to critically analyse population trends, demographic transitions, and their implications for society, the economy, and health systems. Through strong theoretical grounding and methodological training, the course enables learners to understand issues related to population growth, distribution, and change. Graduates of the programme are prepared to work across policy, public health, and academic domains, where they can contribute to research-driven decision-making and initiatives aimed at improving population well-being.

### Dr. Kunal Keshri Assistant Professor

M.A./MSc. in Population Studies at IIPS is a specialized postgraduate program that focuses on the study of population dynamics, demographics, and related social, economic, and health issues. This course is designed to equip students with the knowledge and skills necessary to address the challenges posed by population growth, distribution, and change. The course has the capacity to produce professionals who can contribute to informed policy decisions, public health improvements, academic advancements, and the overall well-being of the population.

## MESSAGE FROM PLACEMENT COORDINATORS

### Dr. Abhishek Singh Professor

At IIPS, the M.A./M.Sc. in Population Studies offers an intensive postgraduate education centred on understanding how populations evolve and how these changes interact with social structures, economic development, and health outcomes. The programme emphasizes demographic analysis, research methods, and applied perspectives to help students interpret patterns of fertility, mortality, migration, and population distribution. By the end of the course, graduates are equipped to engage in research, policy analysis, and program implementation, enabling them to address population-related challenges and contribute meaningfully to societal development and public welfare.

### Dr. Nandita Saikia Professor

The M.A./M.Sc. in Population Studies at the International Institute for Population Sciences (IIPS) is a rigorous postgraduate programme aimed at developing a comprehensive understanding of population processes and their interlinkages with social, economic, and health systems. The curriculum emphasizes theoretical foundations, demographic methods, and empirical analysis to examine patterns of fertility, mortality, migration, and population distribution. The programme prepares graduates for professional and academic roles in which they can contribute to research, policy formulation, and evidence-based interventions addressing population dynamics and their implications for societal well-being.
