## IIPS Webinar on NFHS-5

On 12th December, 2020, Shri Dr. Harsh Vardhan, the Honourable Union Health Minister, Government of India, released the NFHS-5 India's Factsheets Key Findings from 22 States/UTs Phase-1. The results have generated huge public, media and academic enthusiasm and interest, as the results reflected the trend and current health situation as demonstrated by the various indicators. The public interest also has been spiked as the results indicate performance of the government in the health sector, particularly on RCH services, women status, behavioural risk, etc.

Right interpretation of data necessitates a deep understanding of the content process and the context. The Factsheet, unfortunately, does not provide such information which are important for right interpretation of the data.

IIPS will organize an open webinar to present results of selected topical issues along with the technicalities associated with such large-scale surveys. The webinar intends to make sure users of NFHS-5 results, such as the public, media, researchers, NGOs, and others, understood the findings in the right perspective. The NFHS-5 Research Investigators have identified five topical themes to present briefly: on RCH, Family planning, IYCFP & Nutrition, NCDs, and Women empowerment indicators, which will be followed by Q & A session.

IIPS NFHS-5 Team invites all interested to join them virtually on 24 December, 2020 (Thursday) during 03:00 PM - 05.00 PM, through Cisco WebEx. The link for registration is: -
