

Training on Upgraded eOffice Application

A training session on the key features of the eOffice application was conducted by Mr. Suresh Sura from NIC Mumbai. As IIPS is currently using the upgraded eOffice 7.4.3 application, the session focused on the new features and enhancements introduced in this version.

The training covered the eFile module, including noting attachments, referencing file pages and notes, sending eFiles using eSign, registration and configuration of eSign, Quick Noting settings, and other new functionalities available in the upgraded application.

The session provided hands-on guidance to help users efficiently manage electronic files, streamline workflows, and effectively utilize the latest features and improvements in the eOffice system.
